## TO WHOM IT MAY CONCERN

### **New Managing Director at LuxSpace**

This is to inform you that I will step back from my responsibilities as managing director of LuxSpace by end of 2014 to take over the responsibility of the newly implemented OHB Space Services branch of OHB AG.

Over the past ten years, LuxSpace has achieved a large number of outranging projects starting with SGEO, which is now taking its final steps, the manufacturing and launch of Vesselsat 1 and 2 in 2011 and 2012 and not to forget the 4M mission to the moon that we carried out in October 2014.

My successor as managing director will be Dr. Thomas Görlach, who was before the director of the OHB System Telecommunication program at Bremen. He will start his assignment in January 2015.

In the end I would like to thank you all for your support to LuxSpace and me and I am sure you will continue the good business relations we have established in the future with Thomas Görlach as new managing director.

With best regards

Jochen Harms
